### Software Developer | Web Developer

#### Profile

I am a generalist programmer who has undertaken and completed comprehensive and immersive studies in Programming and web Technologies to acquire the necessary knowledge for a career in these fields. I have 1-year experience as a Trainee in JavaEE with front-end technologies like HTML, CSS, JS, and DBMS like MYSQL. I am also flexible to work in react, node, express, and android. A lifelong learner who incorporates strong communication and problem-solving skills to provide a fresh new approach to any project as a software developer.

#### Skills

<b>Operating systems</b>	Windows (xp/7/8/10), macOS
<b>Web</b>	HTML5, CSS, Bootstrap, Node.js, JQuery, React, Flutter, Express
<b>Programming Skills</b>	Java, C++, JavaScript, PHP, AJAX, Python, Go Lang, Android
<b>Cloud and Distributed Computing</b>	Docker
<b>Version Control</b>	Git Hub
<b>Database</b>	CURD, MYSQL Server

#### Education

<b>Programming &amp; Web Technologies</b> , Attestation of College Studies <i>Institut supérieur d'informatique - Montreal</i>	2021-present
<b>Engineering in Information Technology</b> , Bachelor's Degree <i>Sal College of Engineering - India</i>	2016-2020

## Certifications

---

<b>Java(Basics)</b> <i>HackerRank</i>	2021
<b>Advance Python Programming</b> <i>Foursteps Training Solutions</i>	2021

## Professional/Work Experience

---

<b>Trainee of Java Language</b> <i>HN Techno, India</i>	2019-2020
<ul style="list-style-type: none"><li>• Created website templates as per company's requirement.</li><li>• Worked on the back-end for CURD operations.</li><li>• Taught interns the basic concept of core Java, HTML, CSS, JS.</li></ul>	

## Projects

---

### Recify

Build recipe finder application for android devices :

In this project I have used the Spoonacular API and Room, a database object mapping library. This app includes basic functionality like login and register with the access of searching the recipes, adding the favourite recipes to users favourite list. The app also provides the functionality to have step by step instruction to cook the recipe which user likes and also shows the similar recipes.

### Simon Game

Build the exciting web-based game in which players must repeat random sequences of colors by pressing the pop-upped colored squares in the correct order. In this project I have used Go-Lang for back-end and HTML, CSS, JQuery for front-end. It's fast paced play in which user has to remember the color sequence after pressing the right sequence user advances to the higher level.

### Weather App

This project is created using the react for front-end and nodeJs for back-end with the weatherMap.org api. It has a functionality to search for the weather details with city name or with the state initial. The weather data shows current temperature, description, pressure and humidity of the city which user has searched. By default it shows the weather data of city Montreal, QC.

## Other Experience

---

<b>Warehouse Team Member</b> <i>Lufa Farms, Montreal</i>	Nov 2021 - Present
<ul style="list-style-type: none"><li>• Portion, Pack the products.</li><li>• Cleaning after packing is done.</li><li>• Condensing the inventory and other tasks needed to get the day done.</li></ul>
